CRIME LABORATORY ADVISORY

TO: DuPage County Law Enforcement Agencies
FROM: Claire Dragovich, Director
RE: Updated Form: F.15 Forensic Biology-DNA Analysis Request
DATE: June 27, 2018

Crime Laboratory Form F.15 Forensic Biology-DNA Analysis Request has been updated. The update enables documentation of assigned Assistant State's Attorney in the event the case has been charged prior to the evidence being submitted (see below).

Agencies are required to use the new form. Word and fillable pdf versions are available on the laboratory website at: http://dupageforensics.org/serv_appt.htm

FB/DNA testing is inherently consumptive. *If, in the analyst's opinion, there is sufficient sample for our testing, then no more than half of any sample will be consumed. If not, does the laboratory have permission to consume the evidence? (Information on laboratory consumption of DNA evidence can be found on our website: http://dupageforensics.org/serv_advisories.htm)*

Has a person been charged in this case?

- Yes – SAO must give consent for consumptive testing.
 - o Assigned ASA _____
- No, please see below

If no one has been charged (to date) in this case:

- Yes, the agency gives the laboratory permission to consume.
- No, the agency **does not** give the laboratory permission to consume, please hold testing.

END//
